STILL POGGY.

The situation at Chicago still defies ; the prophets and knocks the guessers silly.

Unless all signs fail-and according to the accounts, it is not a "dry time" in the Convention city—the managers for BLAINE have organized a deadlock. There is no other rational meaning to the ridiculous FITLER business, nor to several of the other forced " favorite son " dodges.

Even New York's union upon DEPRW is still open to the suspicion of being Fitlery. There is a chance that CHAUNCEY may run away with the boom that has been furnished him, and smash things in the attempt to secure the prize himself.

A few ballotings will begin to dispel the

## LOCATING PLAGUE SPOTS.

THE WORLD is now locating and depicting the plague spots in our abominably dirty streets, just as it located the danger points in the death-dealing electric wires. Glittering generalities do not count. It is

definite, cold facts and accurate descriptions that do the business. The Health officers or the Street Department have only to follow their noses to find the work that needs to be done. If they won't take this trouble, let them read THE WORLD. Clean these streets!

SPENDING AND TAXING.

Chairman Ester has the large California way of looking at the plethoric Treasury. There would be no surplus, he tells the

Chicago Convention, if it were spent, Very true. But the taxes would be left, Irrespective of party connection, do the people want the war taxes to go on forever like the poet's brook? Is that the feast to

which the election invites them? There is time to do some thinking about that before November.

THEOWING AWAY MONEY.

The gilded youth, son of a rich contractor in Washington, who was arrested yesterday while throwing his superfluous money to a scrambling crowd on Staten Island, took less harmful method of relieving himself than most of the dudes of his type adopt.

It is far better to toss money into a crowd than to spend it in " painting the town " (and bedaubing himself), as the average young ompoop, with more money than brains is wont to do. Some of the scattered coin may fall into worthy and needy hands. It will at least bring no deeper disgrace to the silly spendthrift.

Why should the police interfere with this innocuous method of getting rid of a surplus?

The 'longshoremen were left in an uncom fortable situation by the failure of their sympathetic strike " to help their wronged brothers in labor. But Mr. HURLEY insists, in his excellent paper in another column that reorganization must prevail in the end. So long as Capital combines, Labor must unite or be crushed.

Unbiassed observers and readers are quite prepared to believe that both Manove and ...Wise told the truth about each other and the ring tricks of their party's management in Virginia during the "battle of words" in the Convention yesterday. They are a bad lot.

The race between the word-building of THE EVENING WORLD's readers, and the word-wasting by nominators of favorite sons at Chicago, is a close one. The prize is sure for some one in the former contest but very problematical in the latter.

The spook-conjuring ANN O'DELIA is to make shrouds on Blackwell's Island during her six months' vacation. This is better than palming off bogus tenants of shrouds upon credulous or demented victims.

The bets are still for BLAINE, although Chairman Thurston declared his nomination would be " a political crime." Some blunders are worse than crimes.

The costly stone ceiling of the Assembly Chamber is coming down-and not a strik ember or a seductive lobbyist under it. What a waste of material!

Need of Organization on the Part of the Men.

BY

JAMES HURLEY.

Ex-Secretary of Ocean Association No. 1.

(WRITTEN EXPRESSLY FOR THE EVENING WORLD-There is an army of 'longshoremen in this city and in Brooklyn, Jersey City and Hoboken numbering 30,000 men. About onefourth of this large number are organized, some forming the Ocean Association of the Knights of Labor and the others being members of independent unions, three of which are in this city, two in Brooklyn and one in Jersey City and Hoboken.

SINCE THE GREAT STRIKE. My object is to tell the readers of THE EVENING WORLD the status of the 'longahore-

men since the great strike of two years ago. The last great sympathetic strike, which I tried to prevent, practically demoralized us. The situation then was such that it was reasonable to suppose that the steamship companies would side with us in breaking up the coal combination of capitalists which then as now, lorded it over us. I suppose, however, that they too were interested in the coal combine, as the breaking up of that concern would jeopardize theirs (no less a monopo listic concern) notwithstanding the fact that by beating Mr. Corbin at that time the steamship companies would save hundreds of thousands of dollars in the difference of the price in coals, of which they have to use enormous quantities.

Instead of assisting the longshoremen to accomptish the object in view they actually formed a combination to lock us out, and in our stead hired incompetent tramps and padrones at any wages they pleased to give them, and at the risk of shifting cargo, and also of the life of every passenge who then crossed the Atlantic and Pacific oceans. The loss in breakage and leakage amounted to thousands of dollars, but little did they care, for their only object was the demoralization of the 'longshoremen,

SHEEP WITHOUT A SHEPHERD. The societies stand now like sheep without a shepherd. But let me say right here that to no class of men is there more credit due, as their spontaneous action at that time fully demonstrated when they came out in sympathy with the coal men.

It is not true that District Assembly 49 of the Knights of Labor is responsible for the strike. At a general conference of several industries it was agreed to call us out, I alone protesting, and pointing out the consequences that actually followed, District Assembly 49 having nothing to do with it more than that its fostering intervention was requested and received when it was too late morally and financially.

The fifteen branches of the Ocean Association have not got along well; two are suspended for irregularities and four have

But they will hold together intact jut as sure as will the General Assembly; for we appreciate allegiance and believe in the confraternity of the workingmen.

TREASURIES ROBBED. The treasury of open Union No. 3 has been robbed four times in as many years by men who are now recognized as bosses by their employers, and all efforts to bring them to ustice has failed through the interference of olitical heelers, and where thousands of dollars was handled not a single man was

kept under bonds. Under such circumstances is it any wonder badly remunerated rebel against a society established upon such loose and unbusiness like principles.

NEGLECTING THEIR ORGANIZATIONS. The men in the open unions do not atten regularly in meeting, because, as I previously described, they are shepherdless sheep, buffeted from post to pillar. But when they see the futility of their demoralized state they will surely come back to their organizations and will choose the best, most capable and honest men to lead them, form a solid phalanx in a union of fraternal love and kindly forbearance, and again march to victory.

WAGES AND HOW EMPLOYED.

The wages now or at any other time along the shore were never to my knowledge in twenty-five years uniform. The regular vages on the European ships on the North River before the strike were 30 cents per hour for day-work and 60 cents per hour for night. Sundays and holidays. At present it is 90 and 45 cents. On the East River and in Brooklyn it was 40 cents per hour for the lay and the same for night and holidays. GOING BACK TO THE OLD RATES.

In justice to the conscientiousness of some of the employers, it must be said that they are gradually establishing the old rates again, as they have had ample proof of the incompetency of the tramp and padrone labor pefore referred to.

You may consider that the pay mentioned s sufficient, but when there is taken into consideration the enormous number of men that are waiting under rain and sunshine for an hour's work, regardless of their ability to perform that task, it is very inadequate. Onehird of the number is not employed, but the tramp is held there by the employers as a menace to the old and reliable hands and to the detriment of the employer.

Some of the coastwiss- steamers are paying but 25 cents per hour for day and 30 cents per bour for night and Sunday work. Notably among them is the Ocean line to Savannah, but that that line gains anything by doing so I cannot believe. On the contrary, it has lost much of its passenger traffic under circumstances which they will not know and of which I do not propose to inform them.

Were it not that I am positive of the great work performed by your valuable and enterprising paper in behalf of the laboring nasses, I would not at present have made

Poll fluttered in at the window of Col. A.

home where her absence had created such grief.

There, safely confined in a roomy wire cage, she was asked for an interview by an Evening World reporter to-day.

Poll herself began the conversation, cooing with dulcet accent her one word of greeting.

"Fool!" it sounded like, but Mr. Buckley said that Poll was not speaking United States this morning. She was scolding in her mother tongue. At the word "mother" Poll ruffled up her feathers and after a prolonged seream squaked out, "Mother's Poll"

"Whose Poll?" queried the questioner.

"Adam's Poll!" returned the bird, and this answer seemed so to please the ex-truantess that she would speak of nothing else.

After vainly trying to turn Poll's thoughts to other things, using in turn coaxings, threatenings, politeness and rudeness, the reporter withdrew from the room followed by a still, small voice which still said "Adam's Poll!"

NEW BILLS FOR MUTILATED ONES.

How They May Be Obtained Under the What to do with mutilated currency is

An interesting case has been revealed in the recent arrest of Mrs. Ann Ennis, of 108 Baltic street, Brooklyn, who sent the half of a \$20 bill to Washington, with an affidavit asserting that the missing half had been chewed and destroyed by her baby, and requested that a new bill be issued to her.

Unfortunately for Mrs Ennis, a man named John Shea an acquaintance of one of her daughters, sent half of a \$20 bill to the treasury in Washington for redemption, and the authorities there made the discovery that it was the missing half of Mrs. Ennis's bill, which she claimed had been destroyed by her child.

Mr. Shea said the bill belonged to him, and had been torn in two by a friend who snatched it from his hand. He lost one piece of the bill, and it is assumed that it was found by Mrs. Ennis or her daughter.

Inquiry at the United States Sub-Treasury elicited the information that in cases when the mutilation of a bill smounts to a loss of not more than one-tenth part of it, the bill will be redeemed there for the full amount for which it is issued. If more than one-tenth is missing the bill must be sent to the National Treasury. The amount missing is deducted from the original value of the bill and the owner may realize the balance.

If any portion of a bill has been destroyed and the owner can make an affidavit to that effect, the original value of the bill may be recovered.

A case has been cited in which a woman Baltic street, Brooklyn, who sent the half of a

question which very many people do not un-

effect, the original value of the bill may be recovered.

A case has been cited in which a woman secreted a roll of bills in her house for several weeks. In the mean time mice got at the roll and appropriated a portion of the bills for making nests. The woman made an affidavit setting forth the facts and forwarded it with the bills to the United States Treasury Department. Her affidavit was accepted and in due time new bills, to the full amount contained in the roll, were sent to her.

Inquiry at the National Bank of Commerce Inquiry at the National Bank of Commerce, the New York register of the bonds of the C., B. and Q., elicited the information that the bonds mentioned in the advertisement were stolen about three years ago. Payment has been stopped on them regularly every six months since that time by order from the the Boston office.

The bond clerk said that Mr. Phelps is probably a resident of Boston, and that the advertisement is a mere matter of form, made necessary by the rules of the company to secure an issue of duplicate bonds.

The reward offered is more than half the value of the securities, which are quoted at 94.

Biliousness

Is more general at this season than any other. The bit-ter taste, offensive breath, coated tongus, sick head-sche, drowsness, dintiness and loss of appetite make the victim miserable and disagressels to others. Hood's flaresparilla combines the best anti-billous remedies of the riotim miseracie and mangraphy of the respectable kingdom, in such proportion as to derive their best medicinal effects without the least disturbance to the whole system. This preparation acts upon the all-mentary canal, the liver, the kidneys, the stomach, the bewels and the circulation of the blood, and brings about a field by action of the eatire numan organism, restores the appetite, and overcomes that tired feeling.

Dyspopsia and Malaria

"I had been sick for several years, being troubled chiefly with drapepois and maleris. I had medical attendance, but only grew worse, until one day in February my wife brought me a bottle of Hood's barsaporfils, which seems to have entirely cured me, as I have not been troubled by any aliment since taking it. I consider it a very valuable medicine," JOHN KRHEINE, Chillicothe, Chi

mation for physical and mental enritude and itself of the physical and mental enritude and itself of the before he had a feeling of strong and vigorous physical and nerve power he now has only a sense of weakness, languor and dulness. This is often especially noticeable in the morning. The night's sleep, which should refresh the system and rectore strength and vigor to the merus and muscles, often leaves the person in the morning more tired and exhausted than on retiring.

Business man, whose prosperity depends upon installeraness of brain and mind, find their mental strength impaired and their endurance and power to work diminished. Professional men, atudants and clarks, whose brains, being constantly active, require a more than ordinary amount of nerve force, often find their never of thought decreased. Where formarly thay could endure many consecutive hours of close application of the mind they now find that the thoughts wander and there is inability to fix the mind for any length of time upon one subject; with this there is an extremely nervous and irritable condition—a duff, cloudy sensation, often accompanied by disagreeable feelings in the head and eye.

As been symptoms increase there is usually a darrangment of the digestive organs. The feeling of language is increased, with a gradual failing of strength and weakness and pain in the back. There is often a bad texts in the mouth in the morning, the vision becomes dim, the mouth in the morning, the vision becomes dim, the mouth in the morning of the sis frequent directs. Farsons thus affected are often deependent and sufferent gloom and depression of the mind. The narvest become so weakened after a time that the least exchangent or shock will flush the face or bring on a tremme or trembling, often attended by more or less palpitation of the heart.

The patient having these symptoms, or a portion of the heart.

The patient having these symptoms, or a portion of the mind, is suffering from nervous debility, caused by exthem, is suffering from those excesses and abuses which must having these symptoms. It is a most was

and re-establian health and strength.

This is precisely what that great medical discovery, Dr. Greene's Nervura Nerve Tunic, does. It is a most wonderful tonic, invigorator, and restorer of nervous and physical strength and vitality. It is a purely vegetable and harmless remedy, and under its uses the weak and exhausted feelings give place to strength and vice, the brain becomes clear, the nerves strong and steady, the "gloom and depression are lifted from the mind, and perfect and permanent health is restored. It is an absolute specific for nervous debility. Young men with weakened nerves and exhausted vitality can regain their strength by its use. It restored to energy and invigorates the weakened vital forces in old and young. No one need despair of a cure. De not fall to use this remedy and an absolutely certain ours will result. All druggists keep it. Price \$1 per bottle. Its discoverer, Dr. Greene, 25 West 14th st., New York, the great specialist in curing nervous and chronic diseases, can be consulted free, personally or by letter.
